First Aid at Camp

In the event of a medical emergency, caregivers will be contacted as soon as possible using the information provided on the [Summer Camp Info and Health History 2022](#).

- Caregivers will be contacted in the event of illness that requires the care of the camp health manager for more than three hours or anything more than routine care. Treating insect bites, cuts & scratches, headaches, over-heating or over-tiredness are some typical examples of routine care.
- Medical treatment at camp is performed under the guidance of standard first-aid protocols. On-site health care is provided by the camp health coordinator or designated first-aider.
- The caregiver is responsible to pick up the camper if they must be sent home due to medical condition/illness. Caregivers are expected to pick up the child as soon as possible after being notified by camp that their child is to go home. Persons listed as emergency contact may be contacted if the caregiver is unable to be reached. Emergency contacts will be given necessary confidential/personal/medical information as needed to provide care.
- Campers who are not feeling well or have had a fever in the past 48 hours may not attend camp.
- Campers with head lice may not attend camp. Campers must be nit-free in order to return to camp.

Lost and Found

All gear and clothing should be clearly marked with camper's full name. A box containing lost and found items will be placed at the check-out location. Caregivers are encouraged to look through lost and found items before leaving camp. Camp will only hold lost items for one week after the end of the session.
