

**Ann Campbell Stenberg, PhD, Member-at-Large**

Ann Stenberg, a Girl Scout of long ago in Ohio, has enjoyed a fulfilling career as a research scientist and medical school dean. She graduated from the University of Maryland with a BS in Zoology, from Virginia Commonwealth University with a PhD in Microbiology, and completed a fellowship in microbiology at the Pennsylvania State University College of Medicine. Ann has been a member of the faculty of Eastern Virginia Medical School since 1982, as Professor of Microbiology and Molecular Cell Biology and then Associate Dean for Student Affairs. After 28 years in the laboratory studying viruses, she now enjoys teaching and working with future healthcare providers and scientists to realize their potential and promote their professional development. Ann has been a member of Virginia's Outstanding Scientist Selection Panel of the Science Museum of Virginia since 2001 and is a recipient of the Outstanding Faculty Award, Virginia State Council of Higher Education.
