Get to know Girl Scouts

Your partnership helps girls find what's already within them and puts it into action—one project, activity, and try-again moment at a time. The result is confident girls who discover new skills, form lasting friendships, and make a meaningful impact in their communities.

Our role in the world

Girl Scouts stand out because they're more likely to:

- ✓ Develop a strong sense of self
- ✓ Display positive values
- ✓ Seek challenges
- ✓ Form healthy relationships
- ✓ Be community problem-solvers

How we grow together

Girl Scouts fits right alongside existing programs in schools, faith-based groups, and community organizations—adding to what's already being taught as girls discover strengths from within.

Our hands-on, life-ready programs explore areas such as STEM, the outdoors, leadership skills, entrepreneurship and much, much more that transforms curiosity into “I did it” moments. We'll collaborate with your team to deliver programming that fits your values and curriculum. We honor and recognize your generosity as your partnership is valued and vital.
